Auditor

STATEMENT OF PURPOSE: This resolution amends and renews joint powers Agreement No. 20604 with the DECC authority for the operation of the Minnesota Slip pedestrian bridge during year 2011 for an amount not to exceed \$35,174, payable from the general fund.

The new annual increase is based on the 2011 implicit price deflator (IPD) of 1.6784 percent (rounded to 2.0 percent) for governmental purchases as determined by the state of Minnesota.

The city published the original request for proposals (RFPs) in November 2005, inviting eight vendors to submit RFPs. The DECC was the only vendor to submit a proposal. Both parties signed a contract for the 2006 and 2007 operating seasons. Then, in 2008, both parties determined to continue the contract with two significant changes: (a) automatic renewal each year with city council approval if neither party receives a termination notification by November; and (b) annual contract increases limited to the implicit price deflator (IPD) (Minnesota) for governmental purchases. Contract 20604 was signed early in 2008.

The DECC has been operating the pedestrian draw bridge for the city since 2001.
